

Power 100-S

Heater for Eye- and facewashes

Product information

The water heater is used for making hot driving water and it functions completely automatically. The container is made of stainless steel, and it is insulated with polyurethane, thus enabling the minimization of heat loss.

It does not require ordinary maintenance, but the function of the safety device should be checked as mentioned later. The heater is installed to an adequately sturdy wall or horizontally in a dry place.

Technical information

Volyme	100
Output [kW]	3 (2-phase)
Width	470
Depth	470
Height	970
Weight	38
Water supply for CW/WW, mm	15
Wall holder, mm	265
