

Model 7041

Semi-portable tank shower EX Chiller

This tank shower is movable and designed for flexible use. The emergency shower system is fitted with a chiller and heater for controlled water temperature. The tank is manufactured in stainless steel 304.

The unit is equipped with both Emergency shower and Eyewash. A circulation pump allows the water to flow into the chiller aggregate and verifies the incoming water temperature. If the temperature is too high, the water will be chilled, according to desired pre-programmed temperature. Emergency signs are enclosed with each unit.

This product is manufactured in accordance to ANSI Norm Z358.1 and SS-EN 15154-1 & 2.

FUNCTIONALITY

- Insulated tank, 1710 L
- 15 minutes flush time
- Eyewash and Emergency Shower
- Sunshade cover for storage tank
- Tank and frame are manufactured in stainless steel 304
